

EMPLOYEE WORKPLACE SAFETY

WHY JOIN US?

The businesses of Warren have had a lot to cope with over the last few years, including:-

- droughts
- mouse plagues
- pandemics
- supply difficulties
- labour shortages
- floods
- soaring cost of living

It is not surprising that the pressures of doing business, of maintaining business and keeping a business afloat has had deep effect on the mental wellbeing of business owners, managers and staff.

Come to this free workshop and learn how to implement the tools, techniques and best practices to successfully manage the mental health of your business.

This workshop has been made possible through funding from the NSW Small Business Commission, through their Small Business Month activities.

MENTAL HEALTH IN THE WORKPLACE

Do you have a sound working knowledge of the amendments to the Work Health and Safety National Uniform Regulations relating to psychosocial hazards in the Workplace?

Employers must ensure the health and safety of their workers and other people in the workplace. Health is defined in the WHS act as now including psychological health.

Our free workshop will assist you in understanding the requirements, managing and implementing best practices into your business.
