INTRODUCTION

The Integrated Planning and Reporting (IP & R) framework requires an Operational Plan for 2022/2023. This document is part of the following suite of documents and should not be read in isolation;

- Community Strategic Plan “Warren Shire 2035”;
- 4-year Delivery Program;
- **Annual Operational Plan & Estimates;**
- Long Term Financial Plan;
- Asset Management Strategy; and
- Workforce Plan and Strategy.

The Operational Plan outlines the major activities Council will undertake across the full range of Council’s operations for the 2022/2023 financial year. These activities directly address the objectives and strategies outlined in Council’s Delivery Program and through the Community Strategic Plan.

The Operational Plan deals with the actions and tasks where Council has a role to play and identifies what we plan to do over the 2022/2023 financial year. The Plan also shows how we will measure progress and identifies the sectional responsibility for completing the action.

The annual financial information forming part of this plan, outlines the Annual Estimates, Revenue Policy, Fees and Charges and other financial information. This financial information relates to both the Delivery Program and Operational Plan.

THE OPERATIONAL PLAN

One of the important requirements of both the Delivery Program and the Operational Plan is to identify who will be responsible within the Council for completing the various projects or activities. This gives a clear picture of expectations, accountabilities and timeframes.

Integrating the plans

It is important to remember that the Delivery Program is part of a larger process – the Community Strategic Plan sets the communities agenda for the future, the Resourcing Strategy identifies matters that are within the Council’s realm of responsibility and the Delivery Program and Operational Plan spell out the Council’s plan of action for responding to these matters.

The strategies identified in the Community Strategic Plan have been carried through to the Delivery Program and the actions identified in the Delivery Program have been carried through to the Operational Plan. The diagram that follows shows how the various levels of the planning framework connect.

The Operational Plan has been developed to highlight who in Council does what activity and to identify the activities to be undertaken in the 2022/2023 financial year.

The Operational Plan is broken into Divisional/Departments and where possible to individual managers. Council works as a team from the Councillors to the General Manager and Divisional/Department Managers through to all other staff. We are outcome focused and try to ensure that our work improves the community we live in.

The Operational Plan is the link back to the Delivery Program and the Community Strategic Plan for reporting of our actions and outcomes. The Operational Plan is also linked to the Long Term Financial Plan with respect to the 2022/2023 financial year budgetary requirements.

Council receives a report each half year from the General Manager to advise of the outcomes being achieved at a Delivery Program level (four-year program). This process allows the Council and the community to determine the service outcomes and to look at the budget process against the actions in the Operational Plan. For ease of reporting, Council is using a simple traffic light reporting system of Green, Amber and Red to identify Delivery Program work progress against the Community Strategic Plan.

ANNUAL BUDGET - CAPITAL WORKS 2022/2023

The Independent Pricing and Regulatory Tribunal (IPART) initially set the 2022/2023 maximum permissible rate increase for Warren Shire Council at 1.3%, this was made up of a Local Government Cost Index component of 0.7% and an increased population component of 0.6%.

Subsequently the Office of Local Government (OLG) and IPART advised all NSW Councils of an opportunity to apply for a one-off Additional Special Variation to a maximum total general rate increase of 2.5%. Council resolved at the March 2022 Meeting to apply for an Additional Special Variation of 1.2% to IPART, a determination on Council’s application from IPART is not expected until June 2022.

This Policy may need to be amended and is dependent on the determination received from IPART on Council’s Additional Special Variation application and land value changes received from the Valuer General.

Pricing for Goods & Services

Council is committed to providing a variety of goods and services, which reflect not only the needs of individual customers, but also the wider community. Council strives to attain the highest possible standards by making maximum use of all resources, working in a spirit of teamwork and harmony amongst its Councillors, staff and the community.

Council will ensure that fees and charges are raised as equitably as possible, but at all times, those groups and individuals in the community who are unable to meet such commitments because of financial hardship will always receive due consideration.

Council supports the user pays principle in the assessment and calculation of fees and charges, whilst recognising the need for supplementing income in particular circumstances.

Council recognises the need to provide services for groups and members of the community that may not be able to afford a commercial rate for the provision of such services.

Council will ensure that all rates, charges and fees are set to provide adequate cash flows to meet operating costs and to assist in the provision of funding capital works. Council will pursue all cost effective opportunities to maximise its revenue base and to seek an acceptable commercial rate of return on investments, subject of course to community service obligations.

Council recognises the need to set prices for goods and services to provide the most effective level of service possible to our community.

Council recognises the need to set prices for goods and services to ensure resources are not wasted or underutilised and wherever possible can promote more efficient and effective investment in the provision of infrastructure and essential services.

Council's policy in relation to charges for works on private land is:

"Where work is carried out on private property by labour and plant, utilising materials purchased by Council, the work is charged at actual cost together with appropriate loadings to cover overheads."

Goods and Services Tax

Council is required to charge GST on the provision of goods and services unless specifically exempt under section 81-5 of *A New Tax System (Goods and Services Tax) Act 1999*.

In many instances charges imposed by authority of an act of parliament have been declared exempt of GST. Council where required to charge GST on other goods and services has incorporated this tax into its Fees and Charges.

It is expected that the Federal Government will make changes to this section 81 list over time. Accordingly, Council will adjust its fees and charges from time to time by the GST effect of any future determinations made by the government.
